HUYNH THI PHUONG NGAN

Fresher Java Web

"

Graduated from CodeGym Programming Training Center. With my previous knowledge, I want to find a job as a programmer in a professional and dynamic working environment so that I can promote my capacity in developing quality software products. The desire to devote a part of my values to the team and the company is the motivation for me to develop and improve myself every day. The challenging working environment is the motivation and opportunity for me to improve my professional knowledge, become an excellent programmer and be part of the company's core staff in the next 3-5 years.
